

KSB is one of the leading manufacturers of pumps and valves worldwide with more than 15,000 employees all over the globe. SISTO Armaturen S.A., based in **Echternach / Luxembourg**, is an associated company of the KSB group.

Diaphragm valves and actuator technology for valves are the main products of our company. We have more than 50 years of experience in this field and employ currently more than 170 people. During the last years, we managed to steadily expand our business with the product range of sterile diaphragm valves and built up business relationships with several well-known global players from the pharmaceutical industry.

To expand our team in France, we are looking for a:

Sales representative in France for SISTO aseptic valves (m/f/d)

Responsibilities:

- Technical and commercial advice to customers in the Ile-De-France, Normandy, Hautes-De-France and / or Centre / Val / Pays de la Loire regions and surroundings
- Establishment and expansion of relationship networks with end customers / engineers + designers / plant builders
- Independent organisation of customer visits
- Initiation and implementation of sales promotion measures
- Target-oriented implementation of measures and specifications
- Support of trade fairs and other customer events

Profile:

- Successfully completed engineering studies or technician training
- Several years of professional experience in valve sales or in sterile process engineering and / or experience in field sales would be an advantage
- Active sales personality with a confident and customer-oriented manner as well as excellent communication and presentation skills
- Self-motivation, independent work and initiative, ability to work in a team and commitment
- Positive charisma
- High willingness to travel
- Very good knowledge of French (native speaker) and English, both written and spoken
- Ideally residence in the sales area

What we offer:

- An interesting and varied job in an exciting and international market of the future
- Secure and long-term perspective
- Friendly corporate culture and flat hierarchies
- Personal and professional development opportunities
- Attractive remuneration and social benefits
- Company car
- Intensive training as preparation
